REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 C.F.R. § 1.323

Sir:

In accordance with 37 C.F.R. § 1.323, Applicants hereby request that the U.S. Patent and Trademark Office issue a Certificate of Correction for the above-identified patent, adding the following section on the title page after item (65):

Related U.S. Application Data

- (63) Continuation of application No. 09/781,081, filed on
Feb. 8, 2001, now Pat. No. 6,696,088.
- (60) Provisional application No. 60/181,369, filed on Feb. 8, 2000.

Applicants submit that the omission of the Related U.S. Application Data section on the title page of the patent is a mistake “incurred through the fault of the Patent and Trademark Office, [and] is clearly disclosed by the records of the Office” as set forth in 35 U.S.C. § 254.

The Filing Receipt mailed by the U.S. Patent and Trademark Office on September 28, 2004, and the Updated Filing Receipt mailed by the U.S. Patent and Trademark Office on September 28, 2004, for the present application both recited in the “Domestic Priority data as claimed by applicant” sections that

This application is a CON of 09/781,081 02/08/2001 PAT 6,696,088 which claims benefit of 60/181,369 02/08/2000.

A copy of the Filing Receipt is attached as Appendix A; and a copy of the Updated Filing Receipt is attached as Appendix B.

The title page of the initial publication of the application (US 2006/0039970 A1) contained a Related U.S. Application Data section reciting:

Related U.S. Application Data

(63) Continuation of application No. 09/781,081, filed on Feb. 8, 2001, now Pat. No. 6,696,088.

(60) Provisional application No. 60/181,369, filed on Feb. 8, 2000.

A copy of the title page of the initial publication is attached as Appendix C.

The title page of the republication of the application (US 2008/0305167 A2) contained a Related U.S. Application Data section reciting:

Related U.S. Application Data

(63) Continuation of application No. 09/781,081, filed on Feb. 8, 2001, now Pat. No. 6,696,088, Feb. 24, 2004, which is a continuation application No. 60/181,369, filed on Feb. 8, 2000, now expired.

A copy of the title page of the republication of the application is attached as Appendix D.

Applicants note that the priority to application No. 09/781,081, filed on Feb. 8, 2001, and application No. 60/181,369, filed on Feb. 8, 2000, was claimed by the Applicants, e.g., in the Application Data Sheet 37 CFR 1.76 (PTO/SB/14) form filed by undersigned on August 26, 2008. According to the USPTO guidance, "providing this information in the application data sheet constitutes the specific reference required by 35 U.S.C. ... 120, and 37 CFR 1.78(a)(2) or CFR 1.78(a)(4), and need not otherwise be made part of the specification." PTO/SB/14. A copy of the filed form is attached as Appendix E.

Accordingly, Applicants submit that the omission of the Related U.S. Application Data section on the title page of the present patent is a mistake "incurred through the fault of the Patent and Trademark Office, [and] is clearly disclosed by the records of the Office" as set forth in 35 U.S.C. § 254, and request that the U.S. Patent and Trademark Office issue a Certificate of

Correction for the above-identified patent adding the Related U.S. Application Data section after item (65) on the title page of the patent.

No fee is believed to be due for this correction. If any fees are deemed necessary in connection with this request, the Commissioner is hereby authorized to charge such fees to Deposit Account No. 50-0552.

Respectfully submitted,

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).
